# The History – Big Infrastructure Projects

---

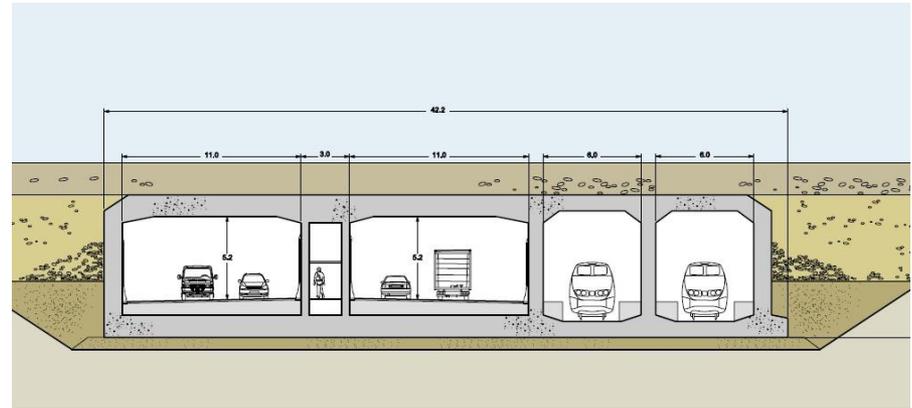

# Facts and Figures

---

- Concrete: ~700.000 m<sup>3</sup>
- Reinforcement: ~150.000 tons

- Concrete: ~3.000.000 m<sup>3</sup>
- Reinforcement: ~300.000 tons

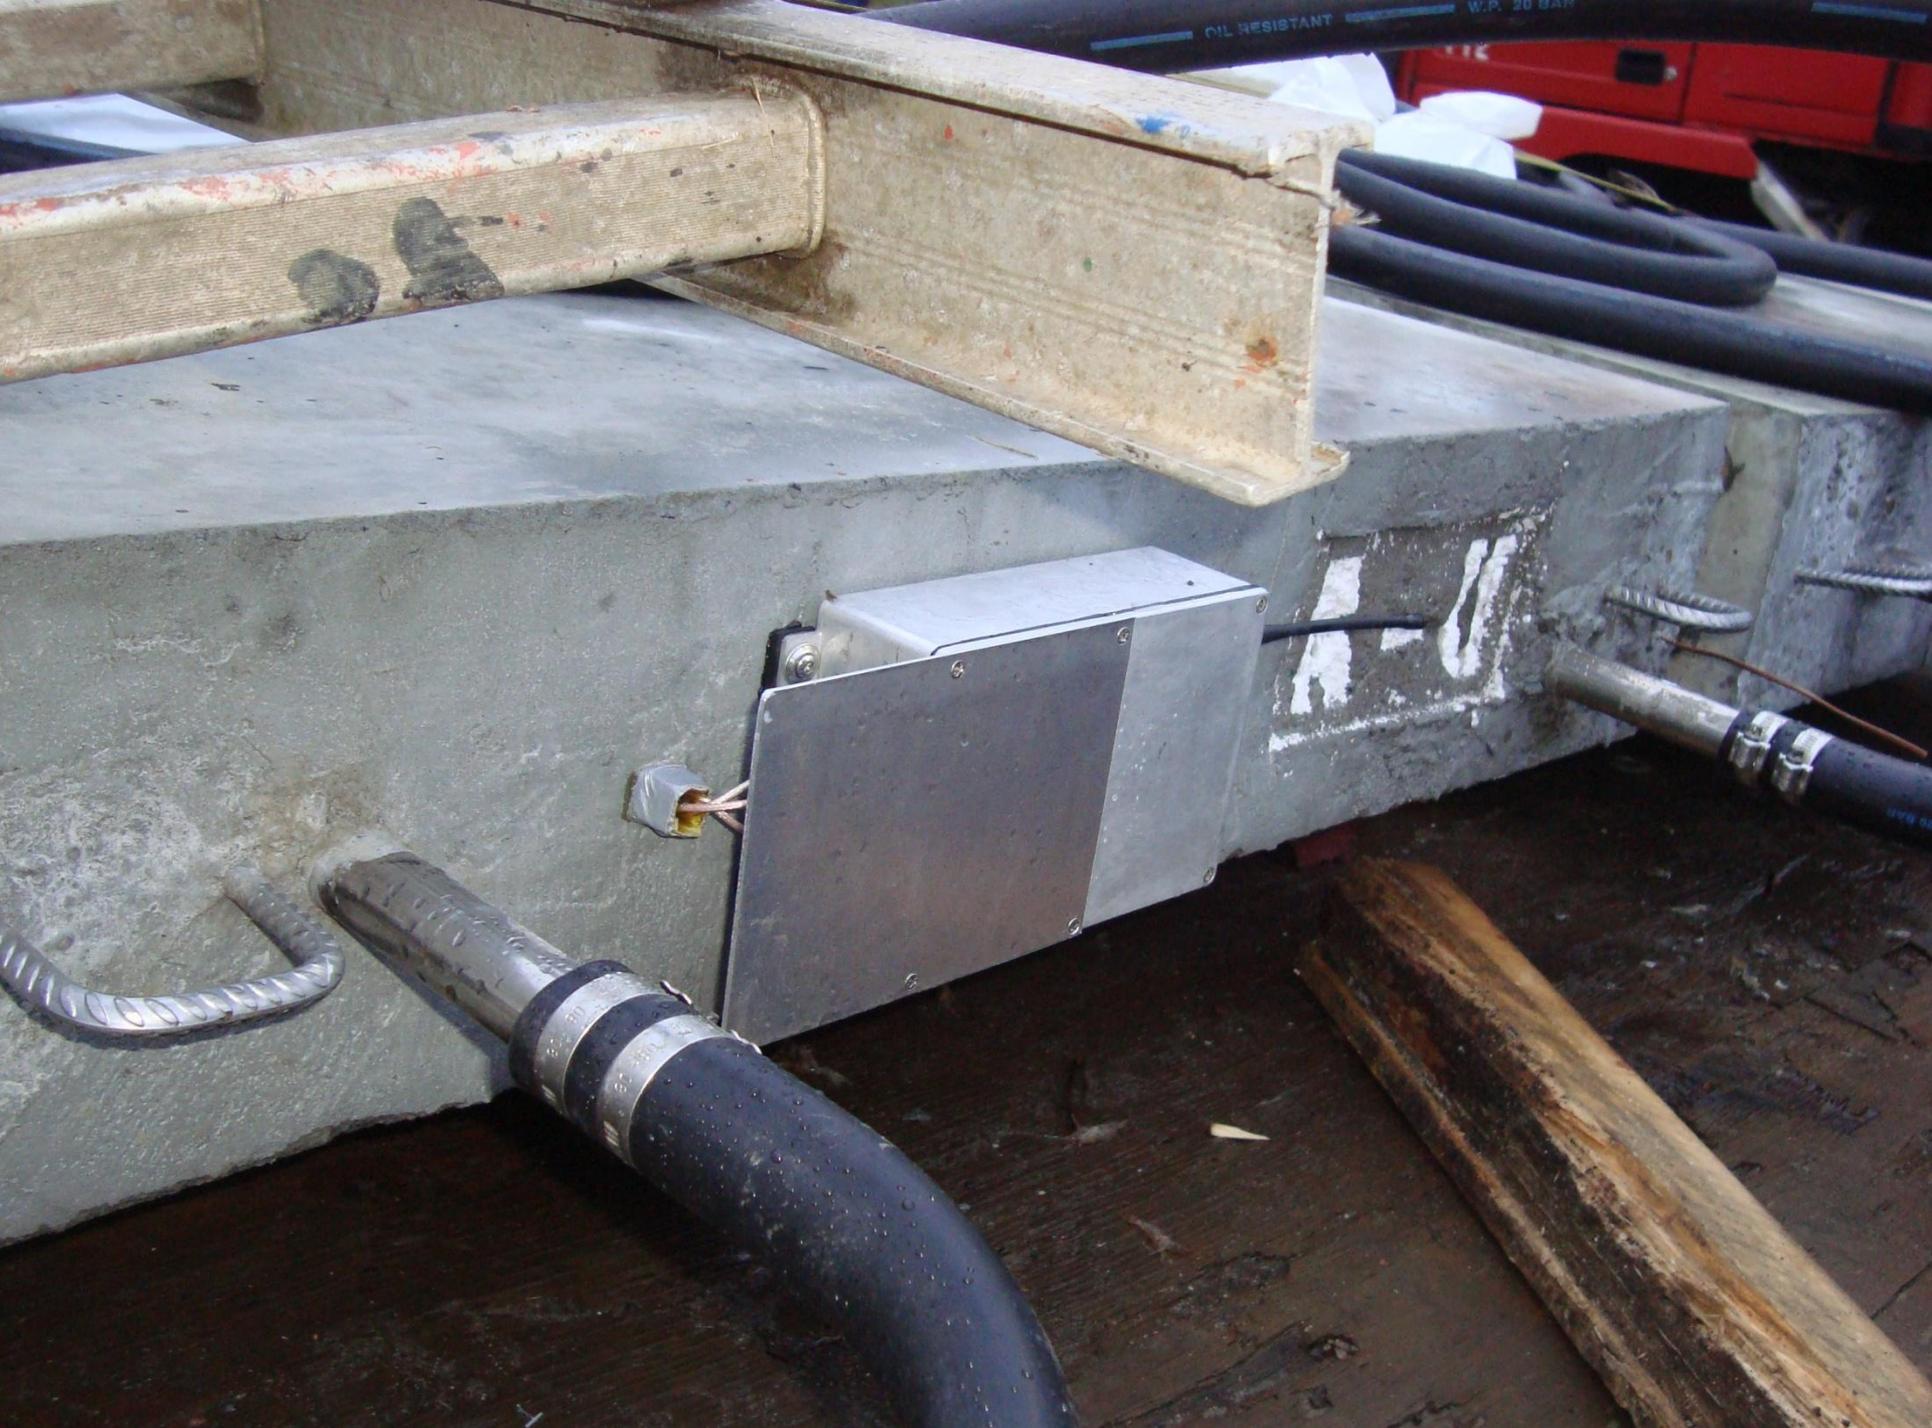

A REN PORTLAND

B HV FLVENSKE

C HV FLVENSKE

D SCC FLVENSKE

E MICROSILICA

# What we believe in?

---

- Help to Contractors – get the quality right
- Help to Contractors – wireless temperature measurement
- Help to Owners and Contractors – get the construction joints right
- Monitoring of short / medium term conditions

# What we do not believe in!

---

- Long term monitoring over "lifetimes"
- "An extra" owner's remote control of Contractor's Works

# What has to be Improved?

---

- Communication Range
- Battery Lifetime
- Robustness of devices
- Positioning Systems?

# Thanks for your Attention
