

Program

Day 1

- 9.00-9.30 **Registration and network**
Coffee and bread
- 9.30-10.30 **Introduction of botany of medical cannabis**
Max Jones
- 10.30-10.45 **Coffee break**
- 10.45-12.00 **Breeding: What makes medical cannabis so challenging to breed**
Max Jones, Hans Henrik Kampmann
- 12.00-13.00 **Lunch**
- 13.00-15.00 **Breeding: chemotypes, diseases resistance, yield, flowering time, uniform plants**
Max Jones, Hans Henrik Kampmann
- 15.00-15.15 **Coffee break**
- 15.15-17.00 **Production: Propagation techniques – clone vs. tissue culture**
Max Jones

Day 2

- 9.00-10.15 **Production: Production systems and environmental climate control**
Max Jones, Taylor Carr
- 10.15-10.30 **Coffee Break**
- 10.30-12.00 **Production: Greenhouse vs. Indoor, single purpose vs. vertical, planting density, best horticultural praxis; Harvest techniques: flushes, stresses, trimming**
Max Jones, Taylor Carr
- 12.00-13.00 **Lunch**
- 13.00-14.30 **Robots - automation in production: Vision, cases, exercise programming a robot**
Søren Peter Johansen, DTI
- 14.30-14.45 **Coffee break**
- 14.45-16.15 **Case Canada: How to work international with medical cannabis and with GMP regulations**
Aras Azadian, AVICANNA
- 16.30-17.30 **Dinner and network**

Day 3

- 9.00-10.30 **Introduction to GMP regulations**
Jens Ulf Skriver, Niras; Thomas Bo Sølvér, Alpha Nordic – Niras
- 10.30-10.45 **Coffee Break**
- 10.45-11.45 **Extraction methods for medical cannabis**
Rime Bahij, QNTM Labs
- 11.45-12.15 **Excursion: Visiting pilot facility for extraction on same DTI campus**
Nikolaj From Petersen, DTI
- 12.15-13.15 **Lunch**
- 13.15-14.30 **Formulation of medical cannabis – product design**
Frantz Le Devedec, AVICANNA
- 14.30-15.00 **Closing, evaluation and coffee**
