

About Microsoft Official Course On-Demand

MOC On-Demand is an integrated blend of video, text, hands-on labs, and knowledge checks, designed to help IT professionals and developers build their skills on Microsoft technologies. The courses provide a self-paced, stand-alone training alternative for those who prefer to learn at their own convenience. They can also be used in conjunction with instructor-led training to provide a blended classroom experience or be used as a foundation for a training solution that includes mentoring and other learning services.

Any labs associated with courses are delivered on the Microsoft Labs Online (MLO) platform via web browser. Students launch the labs directly from within the course; no additional set-up is required.

System requirements for MOC On-Demand

Note: Currently you can also take MOC On-Demand training on your iPad® Retina 4th Generation, however the lab experience is not optimized for tablets.

Recommended System Requirements

Operating System:

- Windows 10

Browser:

- Current version of Internet Explorer, Microsoft Edge, Google Chrome™ or Firefox®

Internet Access:

- Broadband Internet connection (more than 256 kilobytes per second per user network bandwidth)
- External access to the Internet
- Either an Active X control must be installed (requires local administrator permissions), or IE 11 or later
- For some corporate firewalls, a proxy client (such as TMG Client) may be required

Screen resolution:

- 1280 x 1024 or higher

Minimum System Requirements

Operating System:

- Windows 7 or later

Browser:

- Internet Explorer 9 or later
- Google Chrome™ 25.0.1364.172 or later
- Firefox® 19.0.1 or later

Internet Access:

- Broadband Internet connection (256 kbps per user network bandwidth)
- External access to the Internet
