Type of product: Please note that you will obtain the certificate only for products you described!	It is differentiated between: <input type="checkbox"/> clothing <input type="checkbox"/> clothing fabric <input type="checkbox"/> shading fabric
Article no. of manufacturer:	
Material composition:	
Weight per square metre:	
Finish:	
Coating:	
Feature of right side:	
Care label:	    
Colours:	

3. UNDERTAKING

With the legally binding signature on this application we undertake and declare that

- the specified conditions of the currently valid UV Standard 801 are well known and are being observed,
- the specified conditions for the UV Standard 801 label are well known and are being observed,
- the consumer product to be certified has been described as accurately as possible with reference to material composition, weight per square metre, colour, finish, coating and care labelling, provided these parameters cannot be verified by one or more test reports from accredited testing institutions,
- an appropriate quantity of samples is given to an Institute of the International Testing Association for Applied UV Protection if the test is still outstanding,
- a declaration of conformity in connection with the certification application is provided,
- the Institute of the International Association which processed the application or issued the certificate will be informed before production or the consumer product is changed and that the change will only be implemented following written consent of the Institute,
- all required measures and precautions will be taken to ensure that the manufactured products correspond to the certified sample and that an appropriate qualitymanagement system will be set up, including, in particular, regular product inspections and their documentation,
- a representative of the International Testing Association for Applied UV Protection is allowed to take samples from current production,
- the costs for any required monitoring tests will be assumed.
